# How to Manage Vultr Account Limits

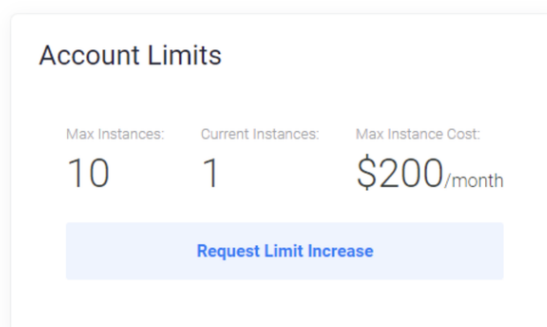

## Introduction

The Vultr account limit defines the maximum instances and costs you can have in your account. These limits are necessary to control costs or excessive usage of your cloud account resource allocations.

Follow this guide to manage account limits using the Vultr Customer Portal.

1. Navigate to **Accounts** and select **Limits** under **BILLING**.
2. Review the maximum instances, current instances, and maximum instance cost.

### Billing

Account Limits		
Max Instances:	Current Instances:	Max Instance Cost:
10	1	\$200/month
<a href="#">Request Limit Increase</a>		

3. Click **Request Limit Increase**.
4. Confirm your profile information.
5. Select your **organization size**, **describe** your cloud account use cases, and type your name in the **Signature** field to acknowledge that the information provided is accurate.

## 6. Specify the new account limits and click **Request Custom Limit Adjustment**.

Please list your requested limits. In order to expedite this process, please be as descriptive as possible in your use cases.

New Instance Limit
25

New Instance Cost Limit (Monthly)
1000

Limits are imposed to help protect the Vultr platform from fraud and AUP violations. An accurate description of how you will use your higher limits is required. Thank you!
