Introduction

The `Vultr CLI user delete` command permanently removes a user account from your Vultr infrastructure. Specify the user ID to delete the associated account and its access permissions.

Usage

CONSOLE

```
$ vultr-cli user delete <user ID>
```

Examples

CONSOLE

```
# Full example  
$ vultr-cli users delete 821fae4d-2a0f-4b0e-8ffd-2fe59d67d4b2  
  
# Shortened with alias commands  
$ vultr-cli u d 821fae4d-2a0f-4b0e-8ffd-2fe59d67d4b2
```
